NJ STIC Communications Plan: An Interactive Polling Exercise
I'd like to be here:

- Option 1: 7
- Option 2: 43
- Option 3: 12
Which agency type do you represent?

- FHWA: 6
- NJDOT: 38
- MPO: 9
- Academia: 2
- Industry/Trade: 3
- County: 2
- Municipal: 3
- Other: 1
The EDC-6 Innovations most beneficial to my organization are:

- 27: Crowdsourcing for Advancing Operations
- 21: E-Ticketing & Digital As Built
- 32: Next Generation T&M: Integrating Technology, Data & Training
- 36: Strategic Workforce Development
- 26: Targeted Overlay Pavement Solutions (TOPS)
- 45: Virtual Public Involvement
- 31: UHPC for Bridge Preservation & Repair
Mobilizing an FHWA resource specialist to provide a training would be most helpful for:

- Crowdsourcing for Advancing Operations (5.1)
- E-Ticketing & Digital As Builts (6.4)
- Next Generation TIM: Integrating Technology, Data & Training (5.8)
- Strategic Workforce Development (7.1)
- Targeted Overlay Pavement Solutions (TOPS) (4.5)
- UHPC for Bridge Preservation & Repair (5.4)
- Virtual Public Involvement (6.7)
<table>
<thead>
<tr>

<tr>
<td>Sealing of cracks in UHPC bridge decks.</td>
<td>Pavement preservation techniques</td>
<td>ExPo tactical urbanism program</td>
</tr>
<tr>
<td>Planning information geocoded database</td>
<td>Virtual Public Outreach. Applications of Voyag</td>
<td>Pavement preservation</td>
</tr>
</tbody>
</table>
What innovation has your organization advanced that offers useful "lessons learned" for others?

- Preventive Maintenance Programs / Projects
- UAV usages
- Public info center
- Virtual Public Involvement practices and considerations are subject of research and continuing practice.
- Weather Savvy deployment
- Updated Contractor Compliance Reviews
- UHPC P&R applications, national and international experience sharing
- VPI, Safety Voyager
- Electronic Document Reviews
What innovation has your organization advanced that offers useful "lessons learned" for others?

- Advancements in pavement materials
- Integrated Corridor Management Studies
- Innovative research projects
- Appropriate Pavement Preservation technique for different highways
- safety voyager
- EEO/AA compliance reviews.
- DBE Commercially Useful Function
- Lessons learned from pilot projects or programs as part of STIC
- ITS Architecture
What innovation has your organization advanced that offers useful "lessons learned" for others?

- Transit oriented development - partnerships with state agencies & municipalities.
- Bicycle safety on highways
- Lunch time "share and learn" sessions on technical innovations?
- Reducing fatalities on highways.
- co-authored UHPC training courses with AASHTO TC3
- Candidate Roundabout Program
- Alternative contracting approaches.
- Together North Jersey
- Cloud based GIS Sidewalk Inventory Tool.
What innovation in NJ should be more widely shared with the STIC membership and others?

- Next Generation TIM
- Safety Voyager
- safety voyager
- UHPC and pavement preservation
- Planning information geocoded database
- Safety Voyager
- Drone Technology. Safety Voyager
- Alternatives to using UHPC concrete for bridge decks.
- Drone tech and inspection
What innovation in NJ should be more widely shared with the STIC membership and others?

- Alternative Project Delivery
- Safety Voyager
- SAFETY VOYAGER
- Traffic Incident Management
- NJDOT Transportation Asset Management System
- HMA improvements beyond Super Pave.
- Partial bridge header reconstruction with UHPC
- Project Management and Reporting System (PMRS)
- Driving FRP sheeting
What innovation in NJ should be more widely shared with the STIC membership and others?

- Design/Build & Project Bundling
- NJ Crash, electronic data transfer,
- Public Private Partnership
- Effect of police usage for safety on construction projects.
- Electronic crash records.
- Asset management
- Improved traffic striping materials.
I'd like to see an "innovation case study" video about:

- Modern Roundabouts
- Strategic workforce development
- Drone applications
- Successful local road safety plan that was implemented
- Emergency Response specially after a storm.
- FRP sheet piling
- Causes of and treatments for cracks in bridge decks.
- Public/Private partnership as it pertains to TIM
- STEP Implementation
I'd like to see an "innovation case study" video about?

- Local Aid Design Assistance Program overview and benefits.
- Drone application
- Reducing congestion on roadways.
- E-ticketing
- Low carbon concrete
- Safety improvements for high risk rural roads
- Reduction of truck traffic on state highway
- Road diet
- Joint use parking management approaches
I'd like to see an "innovation case study" video about?

- E Construction
- Infrastructure Design incorporating resiliency to extreme weather
- Access management best practices
- FRP reinforcement in marine environments
- complete street
- Weather responsive Management Strategies
- Roadway requirements for automated vehicles - signs, pavement markings, signals
- Reduction of Truck traffic on local roads
